PROFESSIONAL EXPERIENCE

- Senior Full-Stack Engineer & Lead Consultant — Syamil Solusindo Semesta

2022 – Present

 - Architected and deployed 8 applications for 7 Indonesian diplomatic missions across Malaysia and UAE, serving 500+ daily active users and 1M+ registered citizens
 - Engineered **Protkons**, a national-scale consular protection platform (PHP, CodeIgniter, MySQL, Docker) unifying operations across 6 Malaysian missions
 - Built **E-Office** microservices platform (Next.js, Django) for KBRI Malaysia and KJRI Dubai, replacing manual workflows with automated document processing
 - Leading development of **AI Chatbot KJRI Dubai** using Google ADK, FastAPI, and PostgreSQL — among the first LLM-agent deployments in Indonesian diplomatic infrastructure
 - Implemented ISO 27001 compliance including RBAC, AES-256 encryption, and audit logging across all applications
 - Managed 10+ government procurement contracts (RAB/KAK), bridging technical delivery with public-sector procurement requirements
- Research Engineer (Perekayasa) — BRIN — National Research and Innovation Agency

2022 – 2025

 - Designed data pipelines and web scraping tools for national policy research, processing large-scale government datasets
 - Authored 10+ KAK (Terms of Reference) and procurement specifications for government technology projects
 - Built MLOps infrastructure on Kubernetes with Kubeflow, TensorFlow, and MLflow enabling multi-center research collaboration

AI/ML Engineer — BPPT — Agency for Assessment and Application of Technology

2021 – 2022

- Developed face recognition attendance system using Python, TensorFlow, and ResNet, achieving 92% accuracy at government ministry scale
- Deployed computer vision solutions for Indonesia's national technology assessment agency

Software Engineer — KBRI Malaysia — Embassy of the Republic of Indonesia, Kuala Lumpur

2019 – 2021

- Built and maintained consular service applications for Indonesian citizens in Malaysia
- Liaised between diplomatic staff and technical teams to deliver mission-critical software

KEY PROJECTS

Protkons — Consular Protection Platform

2022 – Present

- National-scale platform serving 1M+ registered WNI across 6 Malaysian diplomatic missions
- Stack: PHP, CodeIgniter, MySQL, Docker

AI Chatbot KJRI Dubai

2025 – 2026

- LLM-powered consular assistant — first AI agent deployment in Indonesian diplomatic infrastructure
- Stack: Google ADK, FastAPI, PostgreSQL, LangChain

Cortex — Decentralized Knowledge Base

2026

- Content-addressed knowledge base on SUI blockchain with Walrus blob storage
- Submitted to Sui Overflow 2026 hackathon
- Stack: SUI Move, Walrus, TypeScript

Pemilu DApps — Decentralized Voting

2025

- Transparent, immutable voting system with smart contract vote counting
- Stack: Solidity, Next.js, Ethereum, RainbowKit, Wagmi

BetterFuture — Social Impact DApp

2025

- Blockchain-based social impact funding platform deployed to Ethereum mainnet
- Stack: Solidity, Ethereum, Web3.js, Hardhat

Parvata & FOCO — iOS Applications

2024

- Two native iOS apps published on the App Store
- Stack: Swift, SwiftUI, CoreData, CloudKit
